Lions Of Mirzapur

Raj Krishna Srivastava
Vinod Kushwaha

Problem Statement/Goal

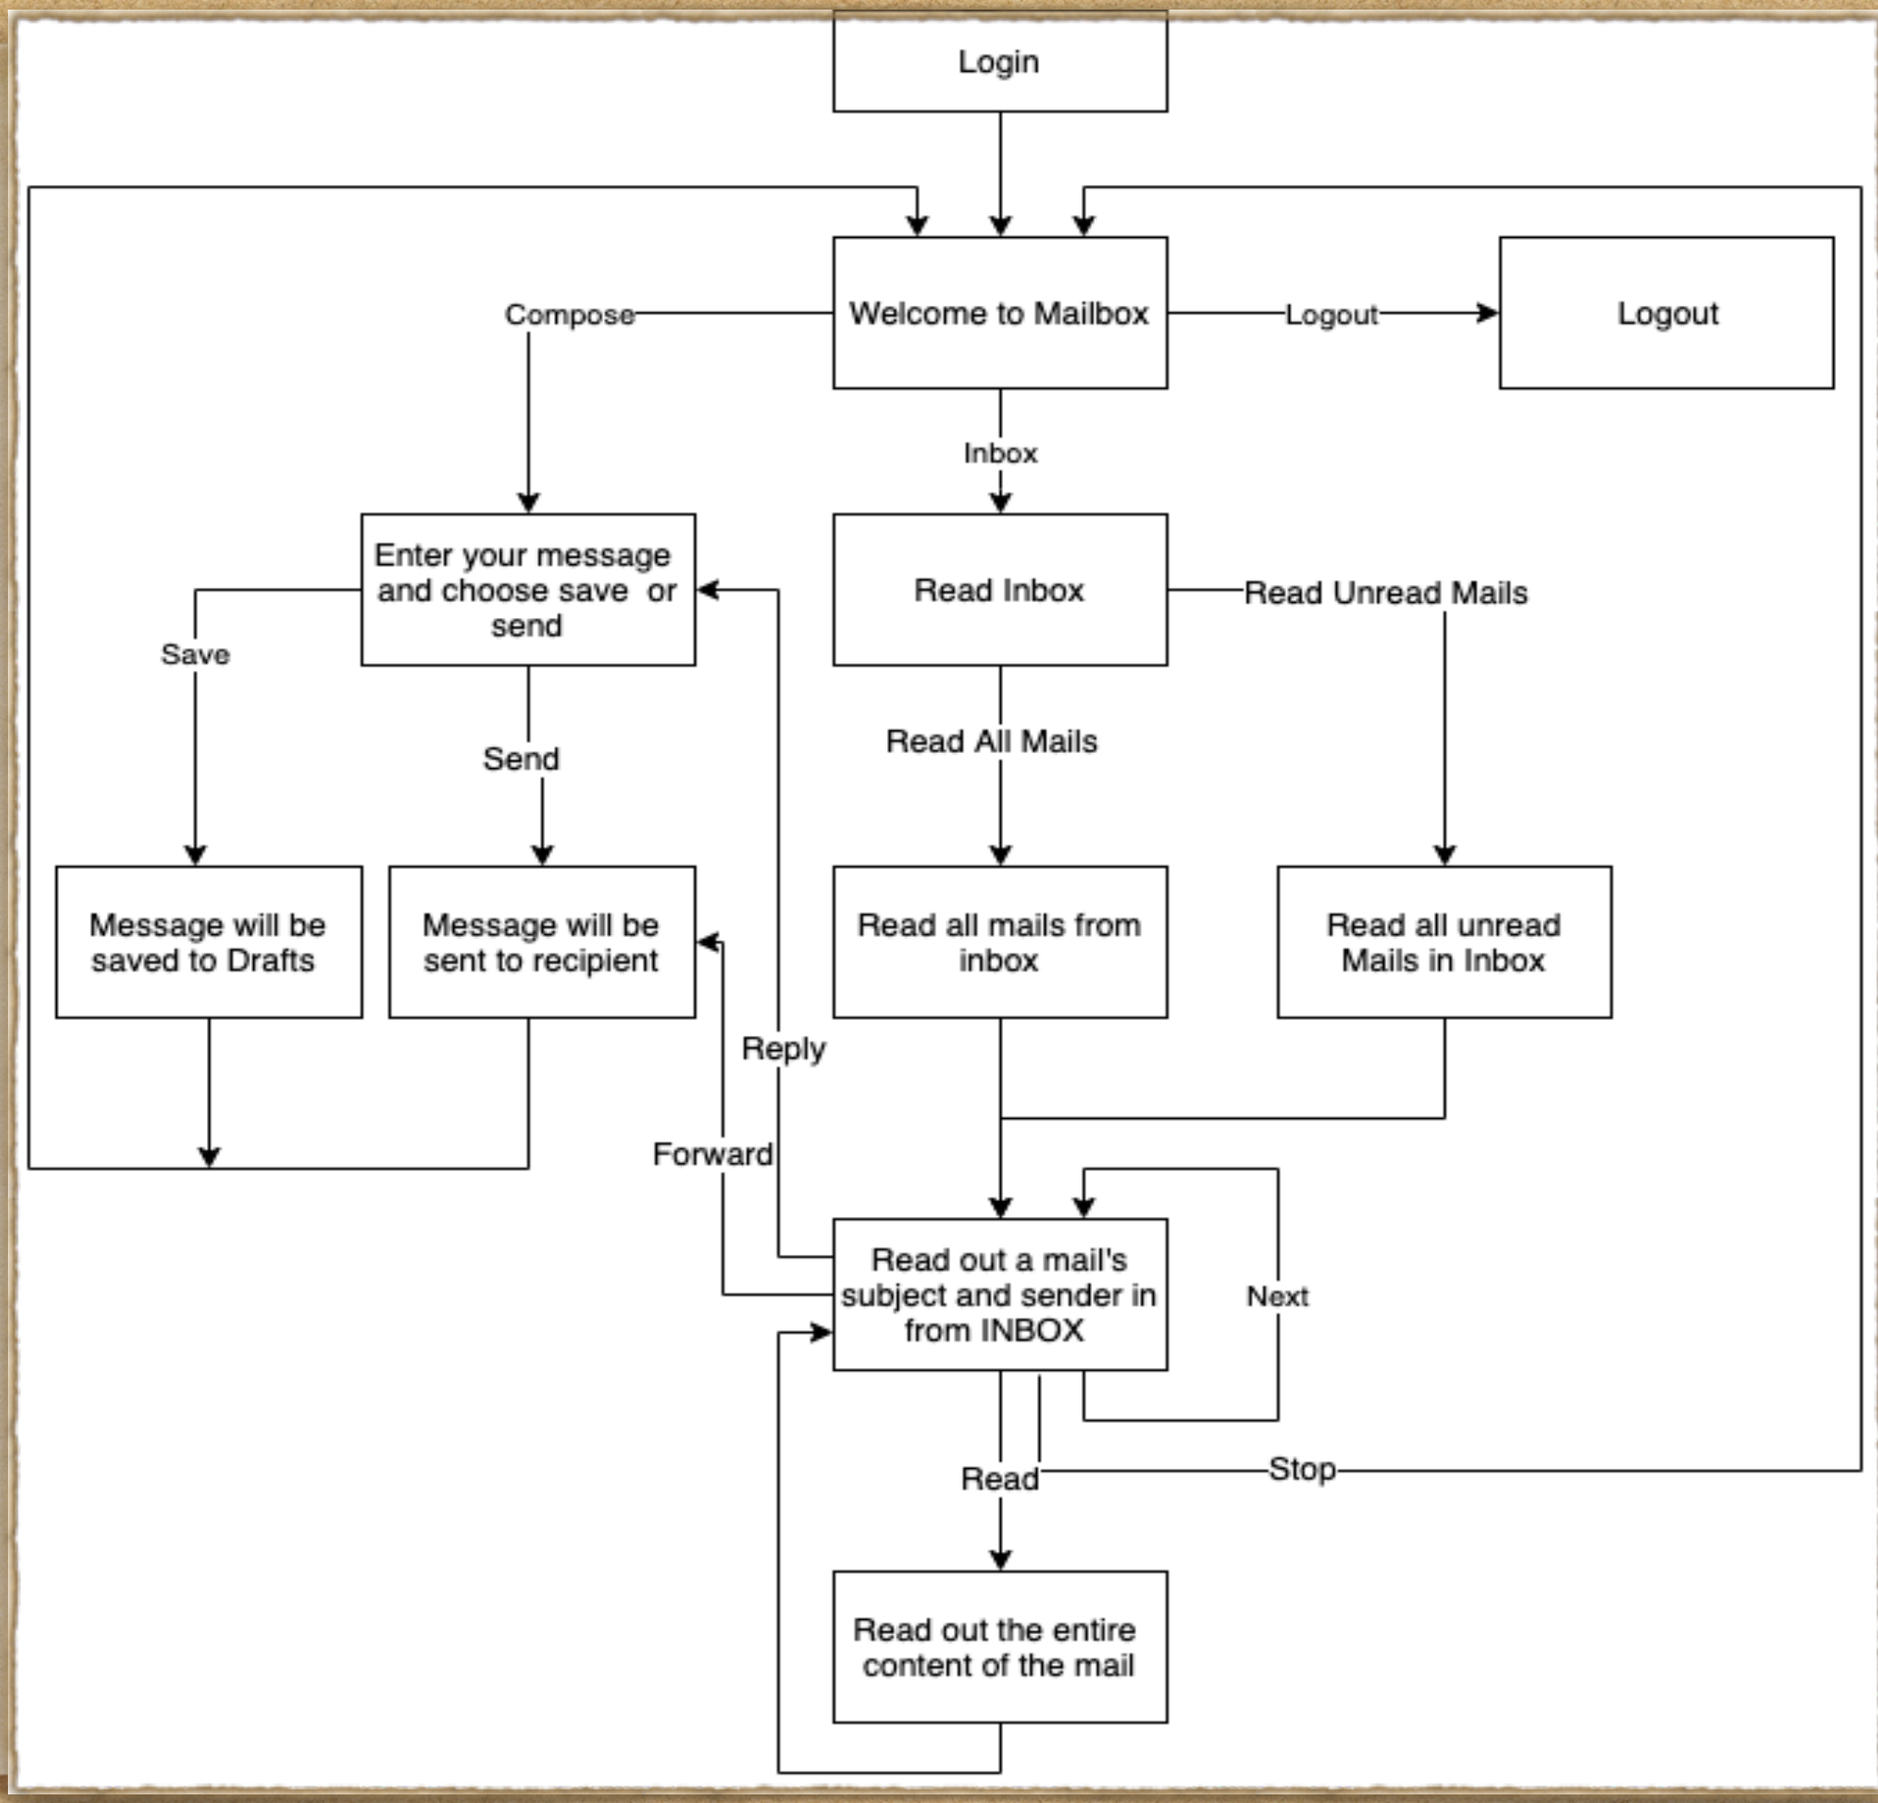
- Emailing System that would based on voice commands and mouse click.
- The proposed system will have the following features:
  - A user authentication system
  - Emailing related features:
    - Compose and Send Mails
    - Listen to mails from Inbox

Motivation

- Internet has transformed the world today
- One thing that greatly changes is communication
- What about formal communications?
- Still done through emails
- What about people who are visually challenged?
- Few tools like braille keyboard available, but require prior training. Screen readers do not fulfil all the requirements

Task accomplished

- Following features have been implemented:
  - Compose
    - Save or Send
  - Read Inbox (Unseen or All)
    - Read mails, Reply, Forward, Delete



Login
Welcome to Mailbox
Compose
Logout
Logout
Inbox
Enter your message and choose save or send
Save
Send
Read Inbox
Read Unread Mails
Read All Mails
Message will be saved to Drafts
Message will be sent to recipient
Read all mails from inbox
Read all unread Mails in Inbox
Reply
Forward
